## MYSTERIO'S MENACE

A casual telephone call with Mary Jane is the beginning of a new adventure for Spider-Man, aka Peter Parker.

Three seemingly unrelated incidents require the superhero's attention in different parts of the city. Rhino is pulling off a heist at the docks, Hammerhead is fighting it out with some goons downtown, and Big Wheel is smashing up a factory.

It's going to be a long night for the web slinger.

When you begin your adventure, you will have three areas of the city that you can investigate. Pick the level that will be the biggest challenge or the easiest to complete, depending on which you prefer. As you complete a level, other areas in the game become available and can be accessed from the Map Selection screen.

## MAIN MENU

Use the Control Pad to navigate through the menu options. Press the A Button to activate your selection. Press the B Button to go to the previous menu.

### New Game

Select New Game to begin your adventure. You will be asked to choose between Easy, Normal, and Super Hero difficulty. Use the Control Pad to move the cursor up and down to highlight a difficulty level. Press the A Button to confirm your selection and enter the game or press the B Button to return to the Main menu.

### Difficulty Select

- **Easy:** You will start the game with five lives and a full supply of web fluid. On-screen tips will provide information about power-ups, and enemies will be easier to defeat.

- **Normal:** You will start the game with three lives and three web fluid cartridges. There are no on-screen tips for power-ups and all enemies will have the standard difficulty level.
- **Super-Hero:** The ultimate challenge. You will start with two lives and one web fluid cartridge. Enemies will be very difficult to defeat.

## PASSWORD MENU

Entering a password in this menu will allow you to restore your game progress. Use the Control Pad to move the cursor and highlight the letters and numbers in your saved password. Press the A Button to select the number or letter. Press the B Button to remove a character.

## SOUND MENU

Press the Up or Down directional buttons to highlight an option. Press the Right directional Button to raise or the Left Button to lower the volume level. Select Back or press the B Button to return to the Main menu.

## MAP SELECTION SCREEN

The Map Selection screen shows the areas of New York City that are available for play. You'll slowly open up more and more areas of the map by defeating the different levels. A red area has yet

to be investigated, while a yellow area indicates a level that has been completed. You can always return to a completed level to search for hidden power-ups.

## PAUSE MENU

Press START while playing the game to access the Pause menu. Select Quit Game to leave the game. Select Resume to continue playing.

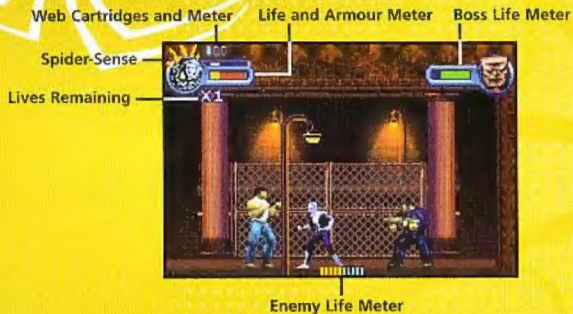

## INVENTORY SCREEN

Press SELECT in-game to access the Inventory screen. The current level objective will be displayed as well as all of the unique items currently in Spidey's possession. The password is also displayed on this screen, which will allow you to restore your progress at a later time.

## ON-SCREEN DISPLAY

**Lives Remaining:** Shows how many lives Spider-Man has remaining.

**Spider-Sense Aura:** Alerts Spider-Man to attacks from off-screen.

**Life Meter:** The red bar displays how much health Spider-Man has remaining.

**Web Meter:** The blue bar displays how much web fluid Spider-Man has in the current cartridge.

**Web Cartridges Remaining:** Shows how many web cartridges Spider-Man has remaining.

**Armour Meter:** The yellow bar on top of the life meter shows how much armour Spider-Man has remaining.

**Boss Life Meter:** Displays how much health the current boss has remaining.

**Enemy Life Meter:** Displays the health remaining for the enemy that you are currently fighting.

## POWER-UPS

### Armour

There are blue and green armour power-ups all throughout the city. A green armour power-up will give Spidey one third of a bar of armour. A blue armour power-up will give Spidey a full bar of armour. When Spidey is wearing armour, enemy hits will deplete his armour but will not affect his health.

Note: Green armour does not accumulate. Multiple green armour power-ups will not raise Spidey's armour meter above one-third full.

### Web Fluid

Collect web refill power-ups to replenish Spidey's supply of fluid.

Many of Spidey's moves require web-fluid to perform. There is a meter that keeps track of how much fluid he has left and an indicator that shows how many web cartridges remain on Spidey's belt. Once Spidey's web meter is depleted, Spidey will automatically load a new web cartridge. If Spidey runs out of web fluid, many of his moves will be unavailable.

### First Aid Kits

Refills one fourth of Spidey's health bar.

### Full First Aid Kits

Fills Spidey's health bar up completely

### Web Cartridge Refill

Refills one full web cartridge.

### Web Refills

Refills one fourth of the web meter.

### **Invincibility Spider**

Makes Spidey invincible for a short amount of time and increases the amount of damage that he does to enemies.

### **Green Armour**

Refills up to one-third of the armour meter.

### **Blue Armour**

Refills the entire armour meter.

### **One-up**

Gives Spidey an extra life.

## **UNIQUE ITEMS**

### **Spider Belt**

Allows Spidey to carry two extra web cartridges.

### **Wrist Container**

Allows Spidey to carry one extra web cartridge. There are two available.

### **Thermal Suit**

Reduces the damage of fire attacks. Spider-Man also gains immunity to incineration.

### **Armour Suit**

Reduces all non-thermal, non-electrical damage.

### **Electric Suit**

Reduces electrical damage.

### **Black Symbiote Suit**

The Symbiotic suit will give Spider-Man additional powers. The exact effects of the suit remain a mystery.

### **Web Compressor**

Reduces web fluid consumption.

### **Fluid Formula Upgrade**

Increases web capture time.

### **Heavy Impact Web**

Increases damage caused by impact web attacks and knocks enemies down.

## LOCATIONS

### Downtown

Spidey must use all of his climbing skills because this area features lots of vertical action.

### Pier 54

The docks are a shady place to begin with. Spider-Man must use all of his web-swinging skills to navigate over water and through indoor shipment areas.

### Empire Metals Foundry

The foundry is full of all sorts of hazards, from pits of molten metal to automated grinding and crushing mechanisms that require careful timing to get through. Can Spider-Man avoid getting toasted while defeating a slew of dangerous enemies?

As you begin to unravel the mysterious events plaguing New York, you will open up new areas of the city to investigate.

## CHARACTERS

### Spider-Man

Control Spider-Man's amazing powers and abilities, which include shooting webs, incredible dexterity and strength, wall crawling, and Spider-Sense.
